

## **SATELLITE and CABLE INSTALLATION**

Cable, internet, and satellite installation is permissible; however, tenant assumes all responsibility for damages to premises, and is required to remove equipment prior to move out.

Satellite dishes or other equipment that needs to be affixed to the exterior structure shall NOT be permanently attached to the roof - please clamp to drain or fascia board, use cinder blocks on the flat roof to hold down a tripod. Tenant will be responsible for and damage to or penetration of the roof or structure and resulting water intrusion.
